Forecast for Monday 27 Jun 2022

Weather: One or two showers lingering overnight but mostly a dry night with some clear spells for all areas. Some mist developing. A bright and dry start for all the ranges on Monday morning with early sunshine. A few scattered showers developing but these will be mainly light and move through quite quickly. Showers dying out in the early evening with some late sunshine. Clouding over later in the evening.

Chance of cloud-free hill tops above 800m: 90% most cloud above the summits but perhaps some patches shrouding the tops.

Low Cloud and visibility: Scattered low cloud around 700m, mostly clearing with just patches near showers later in the day. Visibility will be good but will dip moderate at times in showers.

Met Office Aberdeen Meteorologist's View
Although quite showery there will be some brightness around and less windy than the weekend.

Forecast for Tuesday 28 Jun 2022
Weather: Dry but cloudy overnight, some heavy rain spreading across western ranges by morning. Outbreaks of rain and strong southerly winds are likely for most places, hills further north may remain dry or at least have some breaks in the rain during the day. A very wet day for most areas in this area with persistent rain.

Maximum wind: Southerly 25-30mph with gusts 40-45mph

Chance of cloud-free hill tops above 800m: 40%, low cloud will be most prevalent in the south with some more northern tops seeing very little cloud.

Low Cloud and visibility: Broken cloud above 500m is likely for most hills, perhaps further north and east towards the Glenshee, Loch Muick an Mt Keen will see less lower cloud around 600m. Visibility will be poor in rain which may be heavy anywhere exposed to the south.

Temperature: **Glens:** Plus 12 rising to 16 Celsius, perhaps reaching 18 or 19 Celsius for Aberdeenshire around Aboyne and Glen Tanar.
At 800m: Plus 4 rising to 9 Celsius.
Freezing level: Above all summits.
